BRC Internal Auditor

Duration : 2 Days

Overview

The course is delivered through a mixture of workshop led discussions, practical activities and PowerPoint presentations. On day two delegates are required to undertake a live audit (case study based) where delegates are required to apply the skills and techniques they acquired on day one. Delegates will be given feedback on how they performed during the case study and how they can improve on their auditing techniques

Certification

Delegates successfully completing the course will be awarded a BRC Certificate issued by the BRC.

Target Audience

This course is designed for Quality and Technical Managers, personnel responsible for managing internal auditing schedules and personnel responsible for undertaking internal audits as required by BRC Standards.

Objectives

This course explains the need for an Internal Audit System, the principles and terminology relating to Internal Audits describe the basic principles of Internal Auditing.
